Locations

Dental Science Building, 800 Rose Street, Lexington

First Floor Clinic(s): Faculty Practice Clinic (323-5831)
Clinic Entrance: Room: M122. Located to the right of UKCD’s Main Registration Desk
Clinic Director: Dr. Rodrigo Fuentealba
Clinic Manager: Karen Robinson (257-1494)
Faculty Practice Clinic (aka “FPC”) is similar to a private dental office within the College of Dentistry. Many UK College of Dentistry faculty members treat patients within this clinic. These dentists are faculty members who divide their time between tasks including direct patient care and teaching dental students. This clinic is unique in that a wide variety of services are offered: preventative services, general dentistry, specialty care (Prosthodontics, Endodontics), esthetic dentistry, implant dentistry, etc. Patient care is provided exclusively by faculty members and dental hygienists—no residents, graduates or students provide services.

Second Floor Clinic(s):

DMD Student Clinic (323-6525)
Clinic Entrance: 2nd and 3rd Floors, registration desks are to the left when exiting elevator
Clinic Director: Dr. Emily Winfrey
Clinic Manager: Diane McCord (323-5876)
The DMD Student Clinic is the location that UKCD dental students treat patients in under the supervision of faculty dentists. There are approximately 65 students per class. Staff who work in the clinic include: 1) DMD Clinic Manager; 2) Assistant Clinical Manager and Registered Dental Hygienist; 3) Team Coordinators (schedule patient appointments); 4) Team DAU (Certified Dental Assistants); 5) Dispensary personnel (dispense dental supplies and materials to students); 6) Sterilization personnel (dispense sterilized instruments and collect instruments); and 7) Financial Counselors (create payment plans, collects payments and helps patients with financial questions). There are five teams (called Teams I, II, III, IV & V) that consist of a small group of dental students, a team leader (faculty member), and a team coordinator.

Endodontic Clinic (323-6525)
Clinic Entrance: Registration desk is to the left when exiting elevator
Clinic Director: Dr. Al Wiemann
Clinic Manager: Diane McCord (323-5876)
Care is provided by UKCD dental students and endodontic scholars under the supervision of faculty dentists.
Third Floor Clinic(s):

**DMD Student Clinic** (see above for details)

**Urgent Care Clinic (UCC)** (323-6525)
Clinic Entrance: Registration desk is to the left when exiting elevator
Clinic Director: Dr. Thamer Musbah
Clinic Manager: Diane McCord (323-5876)
This clinic is open during select times and days. UKCD students provide care to walk-in patients in pain, on a first-come, first-served basis. UCC closures are posted online, on TV monitors and by the main entrance directory in the Dental Science Building, and reminders are posted to online channels including the college’s Twitter and Facebook accounts.

**Diagnosis, Wellness and Prevention Clinic** (323-6345)
Clinic Entrance: Doorway (labeled overhead) to registration is to the left when exiting elevator
Clinic Director: Dr. David DeVito
Clinic Manager: Diane McCord (323-5876)
The Diagnosis, Wellness and Prevention Clinic allows patients to seek care for both their oral and overall health needs in a single location. The clinic assists patients in achieving their overall health goals through awareness, education, prevention, and implementation of healthy behaviors. In this unique interprofessional setting, faculty and student dentists in the clinic will integrate initial patient care with health assessment, oral diagnosis and medicine as well as wellness concepts, behavioral medicine, urgent dental care and public health policy. Patients are seen by dental students and nurse practitioner.

Fourth Floor Clinic(s):

**Orthodontic Resident Clinic** (323-5655)
Clinic Entrance: Registration desk is to the left when exiting elevator
Clinic Director: Dr. Tom Kluemper
Clinic Manager: Julie Gralinski (323-0681)
The Orthodontic Resident Clinic provides a variety of orthodontic care, including Invisalign treatment, by orthodontic residents (dentists who are receiving additional specialized training) under the supervision of orthodontic faculty dentists.

**Periodontics Clinic** (323-6193)
Clinic Entrance: Registration desk is to the left when exiting elevator
Clinic Director: Dr. Mohanad Al-Sabbagh
Clinic Manager: Ruta Valinskaite (257-8878)
The Periodontics Clinic provides a variety of periodontic treatments and therapies (treating periodontal or gum disease). Additionally, the clinic offers dental implants and surgical procedures to enhance the appearance of the teeth and gums. Appointments are available with perio residents (dentists who are receiving additional specialized training) and faculty.
**Fifth Floor Clinic(s): Oral & Maxillofacial Surgery** (323-6080)
Clinic Entrance: Registration desk is to the left when exiting elevator
Clinic Director: Dr. Melvyn Yeoh
Clinic Manager: Danielle Bryant (323-5740)
The Oral & Maxillofacial Surgery Clinic (aka “Oral Surgery”, “OMS”, “OS” or “OMFS”) providers participate in patient care at the College of Dentistry, Markey Cancer Center, VA, Turfland and UK Emergency Room, UK Chandler Hospital (inpatient consulting) and UK Chandler Hospital Operating Rooms (Center for Advance Surgery, Major OR, and Good Samaritan). Residents, who have already earned their Doctorate in Dentistry (DMD) and will earn a Doctorate in Medicine upon completing their residency, provide care in this clinic location.

Services provided include: dentoalveolar surgery (extractions, implants, alveoloplasty) along with facial reconstructions related to trauma, cancer or congenital defects, orthognathic (jaw advancements) facial pain and neuropathic pain, temporomandibular disorders, infections, biopsies, surgical management of cysts and tumors and cosmetic treatments (botox, scar revision, eye lifts).

**Clinic: Oral Pathology & Biopsy Service**
Clinic Location: D-504
Clinic Director: Dr. Molly Smith
Clinic Manager: Nora Kidwell (323-5515)
The Oral Pathology lab receives specimens from doctors across the country. Faculty pathologists examine the specimens under a microscope and generate a pathology report.
Kentucky Clinic – Second Floor, 740 S. Limestone, Lexington

Clinic: Orofacial Pain Clinic (323-5500)
Clinic Entrances: Above Starbucks at Kentucky Clinic on S. Limestone
Clinic Director: Dr. Isabel Morena-Hay
Clinic Manager: Bhajana Shah
The Orofacial Pain Clinic (aka “OFP”) is home to the first Orofacial Pain Program accredited by the Commission on Dental Accreditation (CODA). Treatment is available from faculty and OFP residents and consists of integrated patient care with physical therapy and psychology providers. Services include addressing facial pain and neuropathic pain, burning mouth, bite disorders, temporomandibular disorders, oral medicine, oral pathology, sleep apnea, and child and adolescent orofacial pain.

Clinic: Adult Dentistry (323-5562)
Clinic Entrances: Above Starbucks at Kentucky Clinic on S. Limestone
Clinic Director: Dr. Ted Raybould
Clinic Manager: Denise Marshall (257-3462)
Kentucky Clinic Adult Dentistry (aka “GPR”) is a faculty and resident dental practice. The GPR residency program is a one-year postdoctoral program in which dental school graduates learn to improve their confidence and skills in areas such as restorative dentistry, endodontics, implants, extractions, etc. This clinic serves all types of patients, from age 12, providing general and other dental treatments, including root canals, preventative care, and serving the medically, mentally and physically complex patient. A large number of dental-fear patients are treated in this clinic. In addition to treating well patients, it would not be unusual to see patients in this clinic being treated while sitting in a wheelchair or lying on a hospital gurney. The goal of the clinic is to make all patients’ dental visits as pleasant and stress-free as possible.

Clinic: Pediatric Dental Clinic
Clinic Entrances: Above Starbucks at Kentucky Clinic on S. Limestone
Clinic Director: Dr. Cristina Perez
Clinic Manager: Denise Marshall (257-3462)
Kentucky Clinic Pediatric Dental Clinic is a faculty and resident dental practice. The Pediatric residency program is a two-year specialty program which teaches dental school graduates to treat and deal with pediatric dental patients from newborns through age 21, in all stages of wellness and disease. A child’s behavior is often a factor in their dental treatment; and often, the parents’ attitudes and fears must be addressed as well. The providers in this clinic see patients ranging from newborns needing a frenectomy to special-needs patients with medical, mental and physical complexities, to well children.
General Dentistry - Director: Dr. Wes Coffman – Manager: Lisa Brummer (257-9273)
Orthodontics - Director: Dr. Tom Kluemper - Manager: Julie Gralinski (323-0681)
OMFS - Director: Dr. Melvyn Yeoh - Manager: Adrena Shoopman-Woolwine (218-2414)

General Dentistry is similar to a private dental office. Many UK College of Dentistry faculty members and registered dental hygienists treat patients within this clinic. Patient care is provided by faculty members and dental hygienists. This clinic is unique in that a wide variety of services are offered: preventative services, family/general dentistry for all ages, oral medicine, sleep apnea, esthetic dentistry, implant dentistry and specialty care including Prosthodontics (CAD/CAM dentures), Endodontics (root canals), Periodontics and Pediatrics.

The Orthodontics area allows orthodontic faculty members a space to see patients. Adolescent and adult patients needing braces, Invisalign, appliances, and retainers are treated in this clinic.

The OMFS area allows faculty members to treat patients. Services provided include dentoalveolar surgery (extractions, implants, alveoloplasty) along with facial reconstructions related to trauma, cancer or congenital defects, orthognathic (jaw advancements) facial pain and neuropathic pain, temporomandibular disorders, infections, biopsies, surgical management of cysts and tumors and cosmetic treatments (botox, scar revision, eye lifts).
